October – November 2018

October – November 2018 Tarot Forecast

*These two months will be significant, gratifying, enjoyable,
enlightening; connecting with others will be rewarding.*

Two key cards to drive us: The Lovers and The Hanged Man.

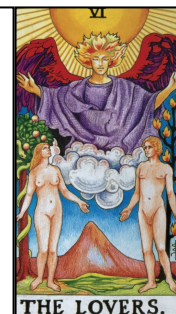

Two key cards to ground and expand us: The Empress and Strength.

The Lovers - The best intent card.

Choices - Communication - Soulmate relationships - Love and commitments.

A period of nurturing, loving, intense relationships is available.

Meaningful relationships are coming into your life, based in good intentions and affinities, mind and soul connections, soul mates. A time to get closer, share, be honest and gentle with each other. Friendship with sharing will come naturally and joyfully. This will include partnership in creative enterprises that will be more productive than doing it alone.

THE LOVERS.

THE HANGED MAN

The Hanged Man - New vision and faith in yourself.

Delay of time - Transition - Change - Spirituality - Trust oneself.

Things are now beginning to materialize. Your finances will increase.

A new opportunity, job and/or a unique idea will flow during these two months. Interesting proposals are coming into the picture, investigate before committing.

It is essential to understand the higher purpose of the situation to make an appropriate choice, and to evaluate the situation from a perspective above present conditions. Do not make a move until the right time, situation or circumstance presents itself. You can achieve success following your visions, making your own statement, and showing your original ideas. Consulting is advisable.

This is the time to take your life in your hands with faith in yourself, freeing yourself from fears and society pressure. Give up that which is no longer necessary to grow. You will find yourself worrying over something past or out of your hands, but these worries are self made. Release them.

Your intuition and psychic abilities will be enhanced, and they can help you to redirect your life with courage and faith to a higher consciousness. This new outlook can turn your life around.

There are a lot of burdens to carry; but your energies will be well directed and you can handle even more.

Get organized. Then be realistic, pay attention in your work, do things correctly and go for it!

Toward the end of this cycle you will be rewarded with the realization that things are coming up better than expected.

The Empress – The door of life.

Material gain and success - Happiness and abundance

The creative imagination - Pregnancy

There is a nurturing environment full of inspiration surrounding you. Just open yourself to receive and begin your masterpiece, be it a painting, a poem, home renovation, new business projects, or all of the above.

Also be aware that merging with another is preferable to solitude.

Strength - Union of desires combine to create great strength.

Courage - Balance between yin-feminine and yang-masculine - Unconditional love.

Learn to love in a new way.

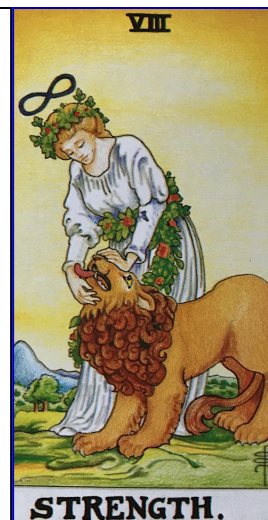

This is a moment in your life when intense emotional partnerships are present, sexual energy can be manifested through trust and intimacy, and mutual agreement upon support for one to another can be reached.

Learn to release fears. Instead of repressing them, allow them and your negative feelings to emerge and come out in a positive context.

This card looks inward and bring us the qualities necessary for the task; openness instead of determination, calm confidence instead of dominance.

Aim for gentle strength.

By acquiring inner strength you will be the master of your universe.

*"If we have no peace,
it is because we have forgotten
that we belong to each other."- Mother Teresa*
