January 2022 Tarot Spread

A month to figure out your path for advancement.

A financial consultant with experience, widespread influence, and connections is your best resource to accomplish your goal especially if s/he could provide a loan.
Beware of information coming from untrustworthy sources. It will lead to confusion and indecision right when you need to decide what road to follow to improve your finances.
This is the time to focus your energy to find the right career or business that meets your needs and leads you to a better life.

Changes involving residence, travel, and new endeavors are coming. You may feel the urge to go ahead without concrete plans or information, but refrain from rushing in. Communication, getting a network, building a database, and sharing information with others will be beneficial. Pay attention to details, especially if you want to build up for your future. All the work that you invest in moving on to a better situation will pay off. Considering studying, getting new skills, and making the necessary steps to get your business on the right foot will be profitable.

Hint: The Hierophant

Observe the rules when considering a final decision about an issue.

You will need to make up your mind about a situation that is already in motion. The former ideas and principles are outdated. Be prepared to choose outside of your comfort zone. If the decision is related to a major corporation or legal issue, be sure to follow the rules and/or the law.

Guidance: The Emperor – Use common sense to make a firm foundation.

There is a decision that needs to be made by reason. Your future depends on how you use your knowledge from previous experiences. Your success comes through your hard-driving effort. Communication is the bottom line.

A person or situation is cycling back into your life causing sorrow about something you thought was completed. Clear up the miscommunication and get clarity about issues that block your advancement.

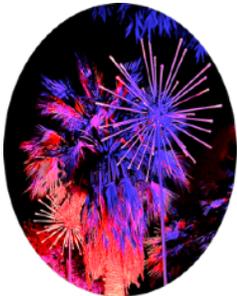

The Empress – A fertile environment will provide abundance, creativity, and honest partnerships. This is the time to prepare the ground for a growing enterprise. Results or gains could be much larger than anticipated.

The more productive you are with sharing your talents, the greater your personal satisfaction.

The insight:

"Wisdom does not emerge out of the Past but flows from the Future. Wisdom is seeing the bigger picture without losing sight of the current one. It is reaching beyond logic and reason without abandoning either and reaching into the irrational without losing your tether to the rational. Wisdom focuses on where you are going more than upon where you are coming from. It looks to learn more than to reaffirm. Be wise upon your path. Reach for the future." - Lazaris, channeled by Jach Pursel
